Summary

I'm a second-year university student passionate about Software Development, with a focus on solving front-end challenges and crafting user-friendly experiences. While building my experience, I've dedicated time to learning new technologies, enhancing my skills in problem-solving, collaboration, and adaptability. I strive to create intuitive, user-centric solutions that improve functionality and satisfaction. Eager to learn and grow, I'm excited to contribute to impactful projects and take on challenges that will help me become a valuable team member.

Technical Skills

Programming Languages: JavaScript, HTML, PHP, CSS, VueJS

Frameworks and Platforms: ReactJS, Bootstrap, MaterialUI, FastAPI, NewAPI

Database Management Systems: MySQL
